Re: Set Aside CO Codes for Un-Forecasted Demand

In the past, Commission staff has instructed the CNA to set aside a number of CO codes within each area code to meet unforecasted demand for CO codes from new market entrants. These CO code allowances have been included in the annual G-NRUF reports.

Commission staff notes that with the area code relief planning activities that are now underway, the table to be used for G-NRUF inputs should be updated. The revised table to be used for the upcoming G-NRUFs is:

Allowance for Unforecasted Demand	
Area Code	No. of CO Codes
204	3
250/604/778	7
306	3
403/780/587	7
416/647	6
418/581	3
450	5
506	3
514/438	6
519/226	5
613	7
705	5
709	2
807	2
819	2
867	2
902	3
905/289	7

These numbers should be carried forward for the 20 year study period with no growth.

Sincerely,

'Original signed by L. Fancy'

Lynne Fancy
