

# CNA Website Status and Reference Data changes

## Changes to CNA Website Status Data on 17 July 2026

The following changes to existing reference data and numbering resource status data viewing pages and data downloads are planned to take place on **17 July 2026**.

Take note and forward this internally to any team member who may view or support automated programming of its import. The CNA does not provide support, however, for anyone who chooses to programmatically download and import the data for downstream processing.

Direct download links are provided for all Friendly Format pages (and their launchers if applicable) and to all the CSV data download files in their respective sections.

# Canadian Exchange Area Listing

Friendly (HTML) Format: [https://cnac.ca/reference\\_data/canadian\\_exchange\\_area\\_listing.htm](https://cnac.ca/reference_data/canadian_exchange_area_listing.htm)

CSV Data Download: <https://cnac.ca/data/ExchangeAreaListing.csv>

## Friendly (HTML) Format

The Canadian Exchange Area Listing Friendly (HTML) Format is being modified to add 2 new fields:

1. ComplexID: an integer serial number associated with the NPA Complex (1 through 18)
2. TBP: a single character field indicating if the Exchange Area has had Thousands Block Pooling launched in it (Y or N)

Sample Friendly (HTML) format of the Canadian Exchange Area Listing

Province	NPA Complex	ComplexID	Exchange Area	Rate Center	Portable	TBP	LIR	Map Link
<no filter>	<no filter>	<no filter>	<no filter>	<no filter>	<no filter>	<no fil>	<no filter>

## CSV data download

The Canadian Exchange Area Listing CSV Data Download is being modified to add 4 new fields:

1. ComplexID: an integer serial number associated with the NPA Complex (1 through 18)
2. TBP: a single character field indicating if the Exchange Area has had Thousands Block Pooling launched in it (Y or N)
3. Lat: geographic Latitude of the centroid of the Exchange Area in signed decimal format (e.g. 51.117)
4. Long: geographic Longitude of the centroid of the Exchange Area in signed decimal format (e.g. -110.278)

Note that all fields in this CSV Data Download are text qualified with double quotes.
