**Subject:** Extension Request for Regulatory Policy CRTC 2024-26 Paragraph 51, requesting recommendations by 6 May 2024

Dear Sir,

In Telecom Regulatory Policy CRTC 2024-26, paragraph 51, the Commission requested CISC to provide, by 6 May 2024, recommendations to strengthen the number assignment guidelines, focusing on preserving geographic NANP resources, both while TBP is being implemented and once it is implemented.

The CSCN has begun to receive contributions on the above subject matter, but further contributions and discussions are required before recommendations can be developed.

The CSCN requests an extension from the date of 6 May 2024. We are targeting to have an initial report to the CISC shortly after the CSCN 128 plenary meetings, scheduled for 11-12 June 2024.

Sincerely,
